

iNSL-NSBE T.E.A.M.S. COMPETITION

To mentor the world's next generation of leaders and entrepreneurs, capture imaginations with topics that already motivate middle and high school students.

iNSL Esport T.E.A.M.S. students tackle systems and engineering design inspired by the gaming industry. Log in to learn with Esport T.E.A.M.S. Academy online then log out for hands-on investigations that prep kids for challenges with electronics, prototyping, data driven gaming and digital arts.

Compete with one of the NSBE approved options. Earn points by completing micro-courses to learn skills you'll need to conquer design and prototyping challenges this season! Earn more points when you submit documentation, short films, prototyping projects, logos, and gaming performance data.

iNSL iRacing Track Series

Time Attacks, Data Driven Performance points and LIVE iRacing Series in February.

Esport T.E.A.M.S. Leaderboard Points Race & Drone Gate Showcase

Complete micro-courses & upload challenge project support materials as PDF, video, and image files. Watch scores rise on the Leaderboard app from January through March. Includes iRacing, Drone Gate Showcase, Fortnite Wearables, and opportunities to collaborate on projects that brand & market your team!

Esport T.E.A.M.S. Challenge LIVE at NSBE's 50th Annual Convention

Showcase sim rigs, wearables, glowing team gear, and other projects in Atlanta then compete on Xbox, PS5, PC and mobile in the iNSL T.E.A.M.S. Gaming Arena.

Boost Leaderboard scores by submitting support materials for your challenge project as items are completed throughout the season. Check the Eisengard AI mobile app to watch scores rise from January to March!

All uploaded files and folders must be received by iNSL staff before 11PM Pacific / 8PM EST on Sunday, March 3rd, 2024. Submission Site & Points Dashboard Open January 1, 2024.
