TECHNICAL PROFESSIONALS

Our mission IS the Mission to increase the number of culturally responsible Black engineers, who excel academically, succeed professionally and positively impact the community

PROFESSIONAL DEVELOPMENT

Networking and professional development are critical elements to survive and thrive in the engineering profession. NSBE not only opens doors to opportunities in the technical world but also helps its Alumni members continuously sharpen their skills and knowledge.

PIPELINE DEVELOPMENT

NSBE believes that culturally responsible black engineers have a duty to share their talent and skills with peers as well as with young minds that aspire to professional success. NSBE serves as a vehicle to strengthen our tomorrow by providing our Alumni members with opportunities to mentor and expose youth to the wonders of science, technology, engineering and math (STEM).

LIFETIME MEMBERSHIP

Demonstrate the ultimate commitment to the mission of NSBE by becoming an elite Lifetime Member!

MEMBERSHIP BENEFITS

- Opportunities to network with over 6,600 technical professionals globally
- Discounted membership rates with other technical associations
- Free subscription to the award-winning *NSBE Magazine*. Published three times a year, it offers the latest industry news and information important to engineering students and working engineers
- Online resume distribution service
- Opportunities to positively impact the community through NSBE's College Initiative and Pre-College Initiative (PCI) programs, which give students exposure to STEM
- Discounts at the NSBE Annual Convention and the regional Professional Development Conferences (PDC)
- Access to NSBE's annual Career Engineer Network Suites, sponsored by NSBE strategic partners

SPECIAL INTEREST GROUPS (SIGs)

SIGs promote technical excellence and provide avenues for professional members to explore technically oriented topics. The SIG areas are:

- Aerospace
- Space
- Energy
- Transportation
- Women in Science and Engineering
- Environmental Engineering
- Information Technology Think Tank
