Dear Prospective Partner,

On behalf of Region I of the National Society of Black Engineers (NSBE), it is with great pleasure that I extend this invitation to partner with us for the 2018–2019 fiscal year. Region I seeks to develop meaningful and strategic partnerships with our sponsors. With your support, we will positively impact our global engineering communities through a focus on the advancement of underrepresented minorities in the fields of science, technology, engineering and mathematics (STEM).

Through a partnership with Region I, your organization will gain access to enriching opportunities that will help maximize your visibility, recruit top diverse talent and promote events that both encourage and support people of color in their pursuit of careers in the STEM fields. Your organization’s partnership is paramount in assisting Region I in fulfilling our regional goals while complying with NSBE’s national directives. In doing so, your organization will play an important role in promoting continuous growth and learning as well as empowering leaders who think innovatively and communicate effectively.

NSBE’s mission statement is now embraced by our more than 17,000 members. This growth has been facilitated by the leadership training, professional and scholastic development, mentorship opportunities, community service programs and scholarship opportunities that NSBE provides in collaboration with organizations like yours.

Region I, known as “Region FiRST,” has a history of innovative ideas and exemplary students. Region I is home to the start of key NSBE programs such as the Pre-College Initiative and the Retention Program. This region was among the first to offer a resume boot camp, helping increase the quality and effectiveness of our members’ resumes.

Region I is also the region with the highest concentration of top tier colleges in the nation, being home to seven of the eight Ivy League schools. The U.S. News & World Report 2017 listing of top engineering programs recognizes our academic prowess, showing that Region I boasts the presence of eight of the 15 top-ranked schools in the nation. Moreover, Region I has the most culturally diverse geographic area in the Society, as New York, New Jersey and Connecticut are among the most diverse states in the U.S. It also has the most international members in the Society (283), with active chapters in West Africa and Canada. In total, Region I boasts 1,912 collegiate members, 315 NSBE Jr. members, 422 professional members and more than 40 lifetime members throughout its 77 collegiate, NSBE Jr. and NSBE Professionals chapters.

I encourage you to review this Partnership Guide, especially the Fall Regional Conference (FRC) and the FRC Career Fair sections on pages 4–6, and discover the great partnership opportunities that can benefit your organization. On behalf of Region I, I thank you for your time and consideration. Region I looks forward to creating a strong and effective partnership with your organization throughout this year.

Sincerest regards,

Lauren Morgan-Evans

The National Society of Black Engineers (NSBE) is privileged to partner with many wonderful corporate and other organization sponsors who support our mission. We are so thankful for your support. These partnerships take many different forms, almost all of which involve employees of the sponsor interacting in some way with NSBE employees and many of which involve employees of the sponsor interacting in some way with NSBE members.

When it comes to NSBE employees, it is the policy of NSBE to maintain a workplace that is healthy and safe and free from harassment and other forms of discrimination based on race, color, religion, sex, national origin, age, disability, sexual orientation, and any other applicable legally protected category. Accordingly, NSBE has zero tolerance for harassment or any other form of unlawful discrimination or other inappropriate conduct.

When it comes to NSBE members, all members are subject to NSBE’s Code of Conduct, which similarly prohibits unacceptable personal conduct at any NSBE-sponsored event, which includes, for example, harassment of any kind, disorderly conduct, or blatant disregard of publicized rules and regulations.

NSBE must also insist that employees of partner organizations act in accord with the above standards. Because most of NSBE’s collegiate members are under 21 years of age, NSBE is particularly protective of the environment in which NSBE-sponsored events are conducted.

We know that you share our values of embracing diversity and respect for the personal dignity of our employees and members. As such, NSBE asks that you confirm the following:

1. You understand and agree that all employees of your organization who interact with NSBE employees and/or members will conduct themselves at all times professionally and refrain from any conduct or comments that are or could be construed as harassing, discriminatory, offensive, or inappropriate.

2. You will notify all employees of your organization who will interact with NSBE employees and/or members of these standards.

3. You will notify all employees of your organization who will attend any NSBE-sponsored event that they are expected to act professionally at all times, including refraining from the excessive consumption of any alcohol and abiding by set rules and regulations of the society.

If any employees of your organization violates any of the above rules, NSBE reserves the right to communicate the matter to NSBE’s relevant points of contact within your organization, have them removed from an event and/or preclude them from any future involvement with NSBE.
