

Dear NSBE Senators:

As you may be aware, the NSBE Professionals through its Professional Membership Special Committee have proposed three amendments to the NSBE Constitution and one amendment to the NSBE Bylaws. These amendments have gone through the appropriate review and approval process to be included as a part of the NSBE Senate business at the 40th Annual NSBE Convention in Nashville, TN. In your role as Senators for the society, we want to make sure that you are fully informed about the content and intent of these proposed amendments so that you review them with your chapter members and consider them in accordance with the will of your chapter's general body, which you represent.

As such, the NSBE Professionals have scheduled two Information Sessions to go over each of the amendments, how they influence the direction of the society, and why they were proposed. These Information Sessions will serve as an opportunity for you to become more familiar with the proposed amendments ahead of the Annual Convention so that you can have the appropriate amount of time to consider them. The sessions will be interactive, so please be prepared to offer questions so that any clarifications can be appropriately provided.

The dates and times of these Information Sessions are:

1. Wednesday, February 12, 2014, 8:00 PM ET/5:00 PM PT
2. Wednesday, March 12, 2014, 8:00 PM ET/5:00 PM PT

Details regarding call-in and participation in these Information Sessions are as follows:

To start this meeting (Webex)

1. Go to <https://merck.webex.com/merck/j.php?J=741186326>
2. Teleconference information
