U.S. Silica Scholarship

U.S. Silica is a global industrial minerals and logistics leader, with core competencies in mining, processing, logistics and material science that enable us to produce and cost effectively deliver over 1,500 diversified products to customers across our end markets.

Over our 118-year history, U.S. Silica has become known for building a legacy of service and making a difference in the communities where we live and work. It’s part of our DNA and a core value for our Company. Although we are rooted in tradition, we never stop looking to the future. Our sustainability programs are central to our ability to constantly improve, innovate and remain competitive.

The best part of our Company is our people! Every day our people showcase the best of U.S. Silica by delivering outstanding results while living by our Company core values. Our culture sets a strong foundation for our future, setting us apart from others in our industry.
